DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 05/08/2009 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on May 8, 2009 was filed after the mailing date of the allowance on April 23, 2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Claims

3. **Claims 1, 4-6, 10-12, 14 and 18** are allowed.
4. The following is an examiner's statement of reasons for allowance:
- Regarding **claims 1 and 12**, in combination with other limitations of the claims, the prior arts cited fail to disclose or specifically suggested wherein when the vehicle's

ignition is turned off, the controller enables a ring indicator on the network access device to indicate the out-of-coverage condition and programs the network access device to only activate the ring indicator to indicate the out-of-coverage condition when the network access device has been out of wireless coverage for a predetermined amount of time, wherein the controller receives the indication of the out-of-coverage condition if the network access device has been out of wireless coverage for the predetermined amount of time and switches the network access device to the power-off state if there is the out-of-coverage condition for the network access device, wherein upon receipt of the indication of out-of-coverage condition, the controller waits a second predetermined amount of time to determine if the network access device goes back into wireless coverage before switching the network access device to the power-off state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
